QuickBooks Online Fundamentals

Part 1

Handouts: QBO Fundamentals Part 1

Today's Webinar

- Handouts are available via **resources** tab in the Zoom menu bar
- Please submit your questions via the **Q&A** button and limit your questions to today's webinar content
- A pre-recorded session of this webinar will be emailed to you following the webinar.

NOTE: The QuickBooks Online ecosystem is constantly evolving to meet your needs. Your current experience may differ from what you see here.

Continuing Professional Development (CPD) Process

- To receive CPD credits you must be in attendance for 80% of the scheduled duration of the webinar.
- CPD certificates are emailed to you within 48 hours of attending the webinar.
- Please be sure to download CPD certificates within 14 days or they will expire.
- Today's course is eligible for **3 CPD** credits.

Agenda

Part 1

Module 1: QBOA dashboard

Module 2: Getting started

Module 3: Transaction activities

Part 2

Module 4: Bank Transactions

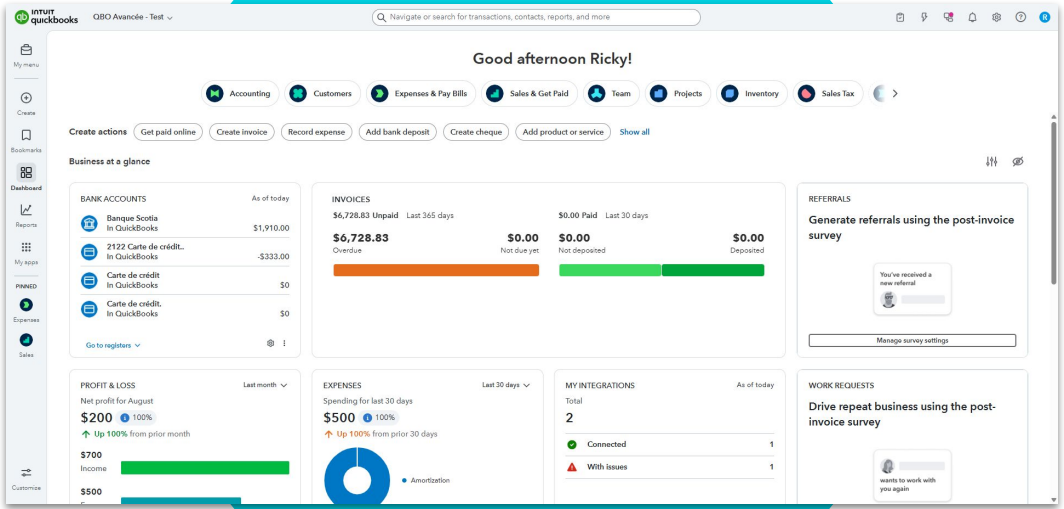

Module 5: Reporting

Module 6: Period-end activities

Module 7: Certification journey

Module 1

QBOA dashboard

Module 1: QBOA dashboard

Lesson 1: Subscription levels and features

Lesson 2: New client set up

Lesson 3: Team members

Module 1 | Learning Objectives

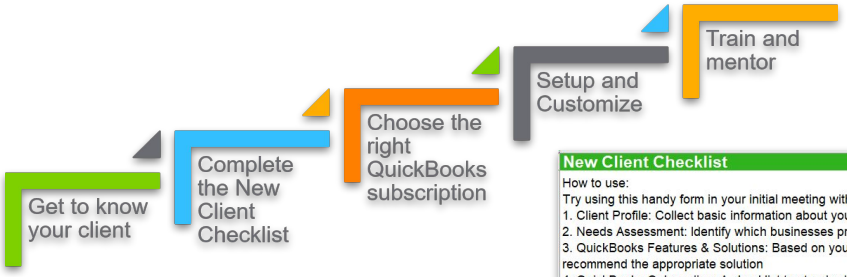

After completing this session, you will be able to:

- ❑ Differentiate each version of QuickBooks Online (5 levels)
- ❑ Create a new client subscription in QuickBooks Online
- ❑ Recognize where to manage and maintain connected Integrations
- ❑ Demonstrate how to manage your team (permissions, access, and audit log)

Module 1: QBOA dashboard

Lesson 1: Subscription levels and features

Onboarding tasks & the new client checklist

New Client Checklist

How to use:
Try using this handy form in your initial meeting with your new client to establish their requirements and help you recommend the best QuickBooks solution for their needs. The form is divided into 4 stages:
1. Client Profile: Collect basic information about your client's business
2. Needs Assessment: Identify which businesses processes they use
3. QuickBooks Features & Solutions: Based on your needs assessment, specific QuickBooks features will be recommended. Review these and identify any additional features your client will benefit from in order to recommend the appropriate solution
4: QuickBooks Onboarding: A checklist to standardize & streamline your firm's onboarding process for your new QuickBooks Online clients.

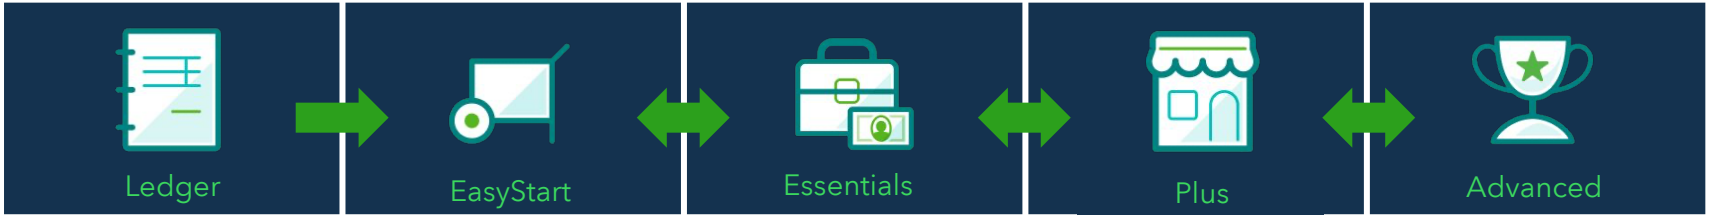

New Client/Business Profile

Company Profile	Profile Information	Additional details/notes
Company Name (O/A):		
Legal Name (if different from above):		
Industry:

Getting started

Ledger

- Low-cost solution to service simple clients
- Bank feeds, rules & reconciliation
- Track income & expenses
- Sales & sales tax
- Manage receipts
- Maximize tax deductions
- Reports
- 1 acct user (not for clients)

EasyStart

- Ledger features
- Browser & mobile app access
- Desktop app
- Invoice & accept payments
- Estimates & progress invoicing
- Connect to apps, payroll
- 1 user & 2 acct users

Essentials

- EasyStart features
- Accounts payable
- Multicurrency
- Recurring transactions
- Custom fields
- Time tracking
- 3 users w/ permissions & 2 acct users

Plus

- Essentials features
- Inventory & PO's
- Budgets
- Classes & locations
- Projects
- Price levels
- 5 users w/ permissions & 2 acct users

Advanced

- Plus features
- Revenue recognition
- Fixed assets w/ depreciation
- Enhanced custom fields
- Workflow automation
- Custom report builder
- Premium support
- Backup & restore
- 25 users w/ enhanced permissions & 3 acct users

Learn more: QuickBooks Online subscriptions and pricing for clients

Module 1: QBOA dashboard

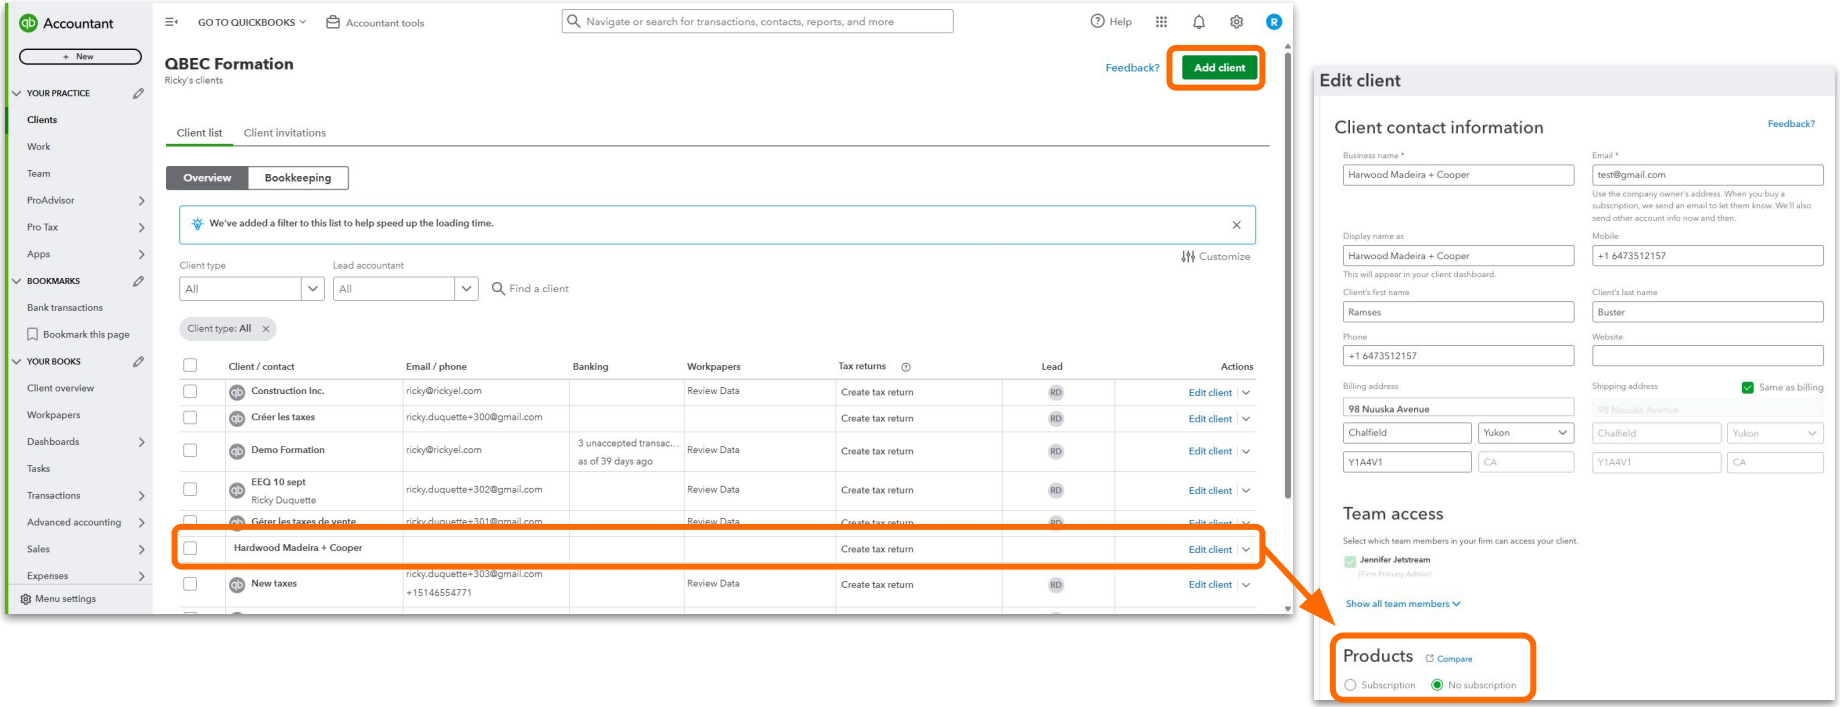

Lesson 2: New client set up

Overview: New client set up

- Clients can be added to QBOA with or without a subscription
- You can add a new QBO subscription to an existing non-subscription client
- Clients with existing subscriptions can invite you as an Accountant User

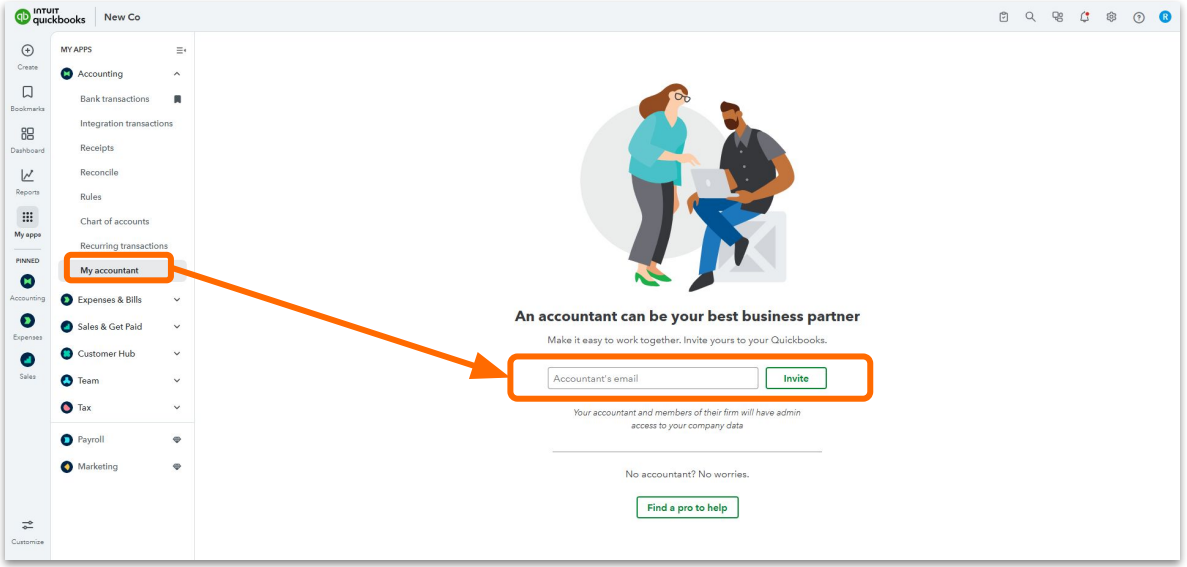

Add a new client subscription

Add a new client with an existing subscription

Option 1:

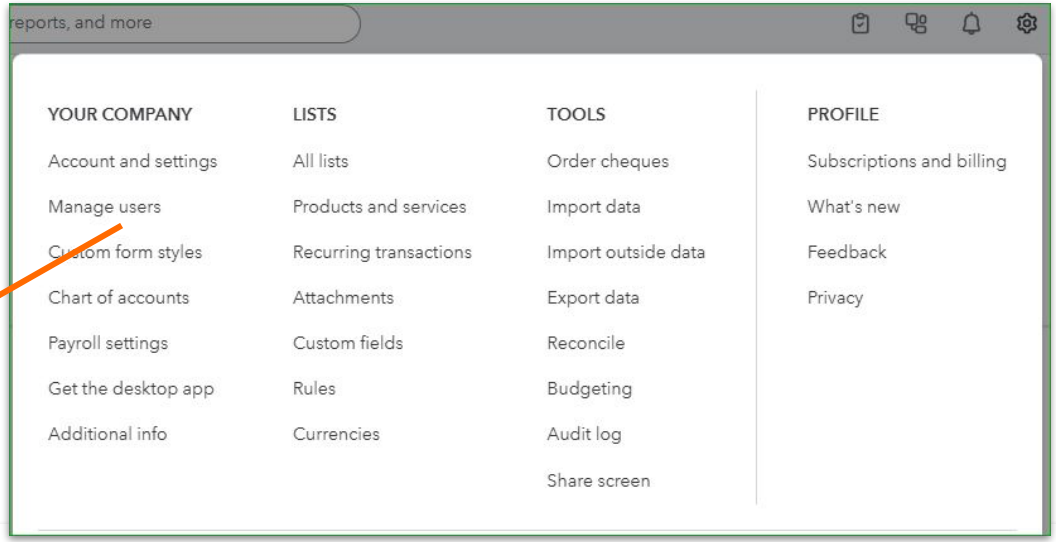

- Ask your client to open QuickBooks Online and click **My apps > Accounting > My Accountant** in the Navigation bar
- If QuickBooks Online displays this window, ask them to enter your email address and click **Invite**

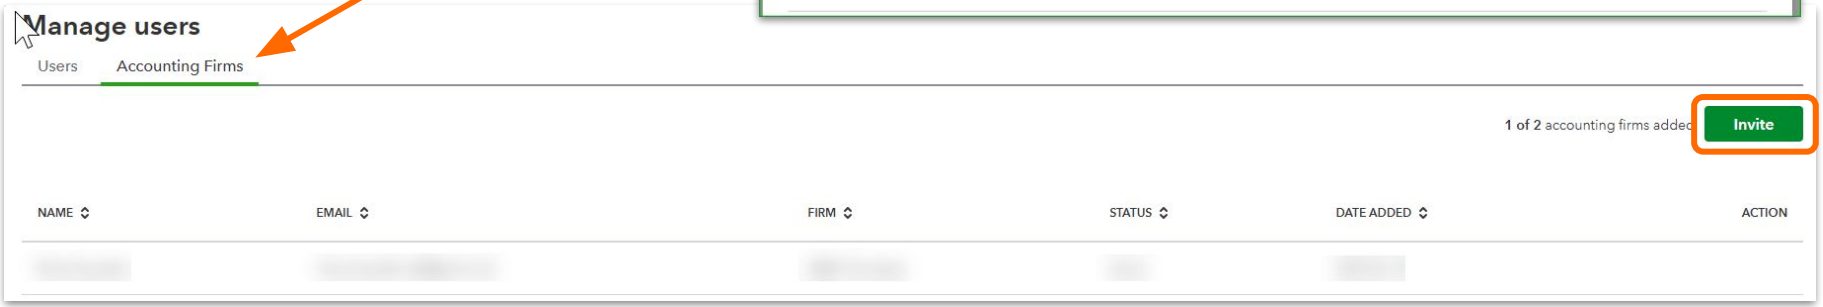

Add a new client with an existing subscription

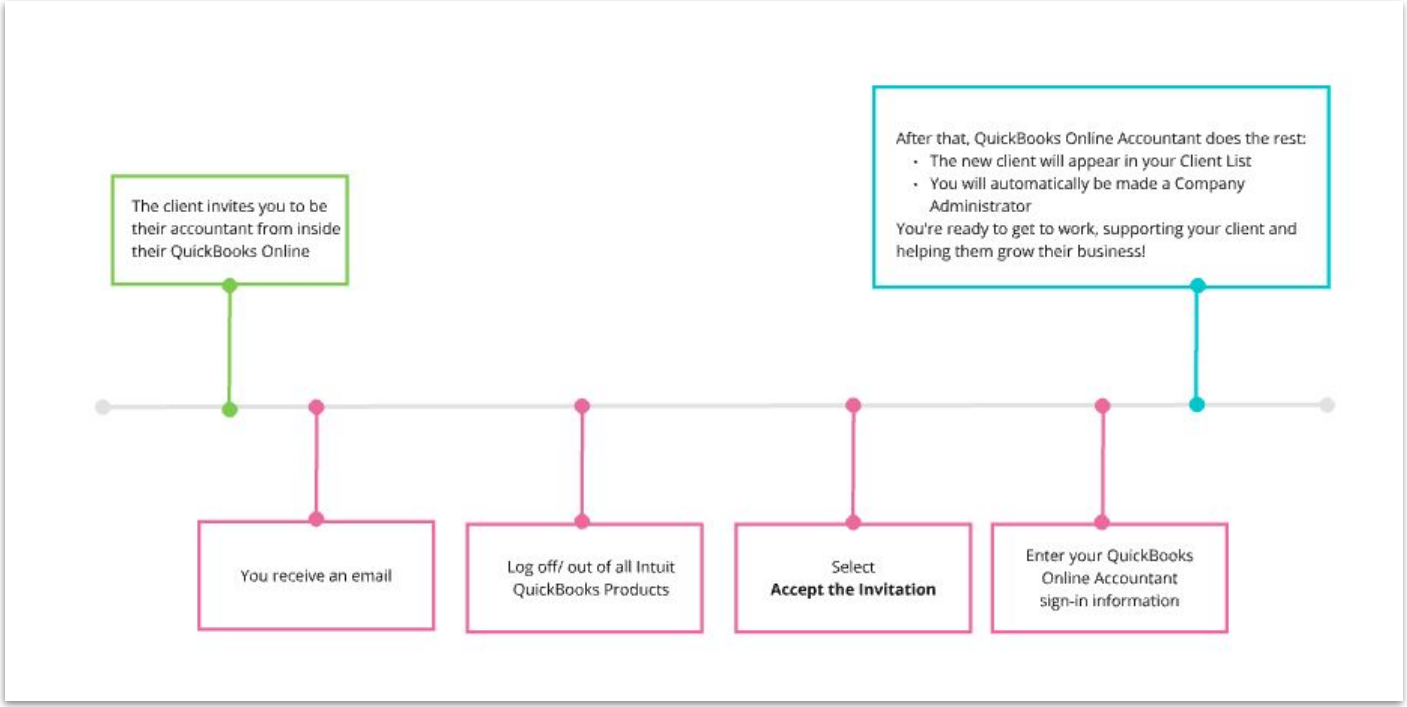

Option 2

- Ask your client to click the **Gear icon** and select **Manage users**
- In the Manage users window, click **Accounting Firms**
- Click **Invite**

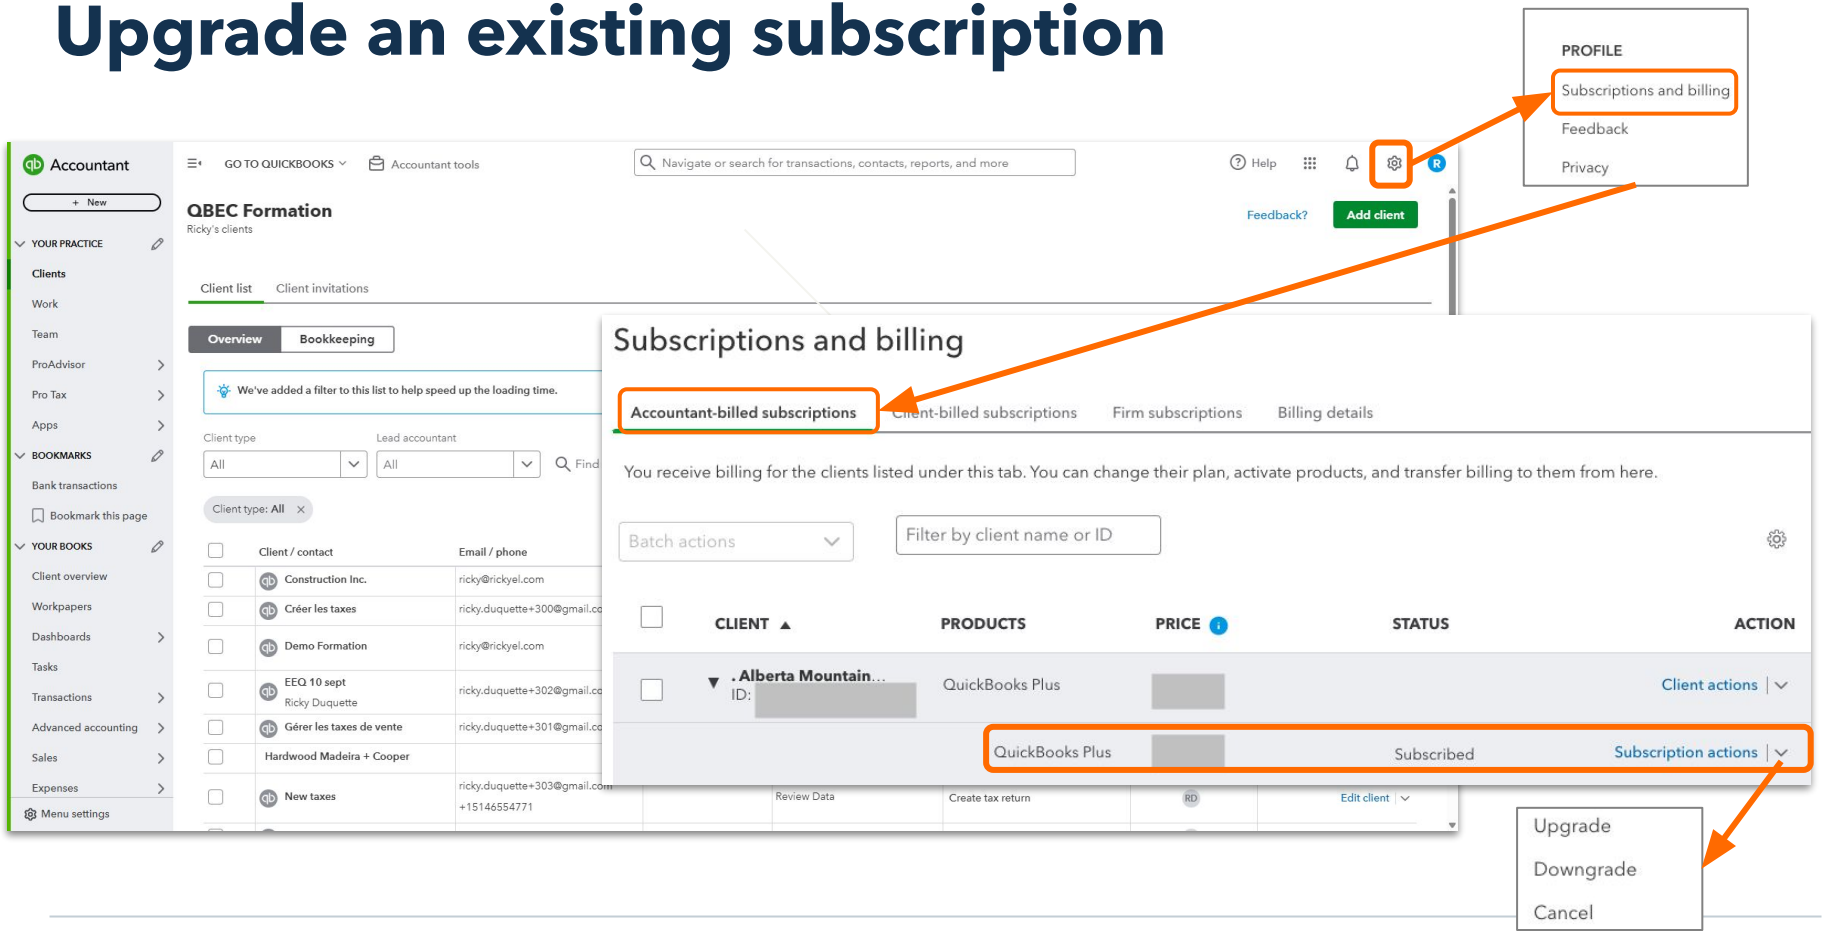

Add a new client with an existing subscription

Learn more: Add clients to QuickBooks Online Accountant

Upgrade an existing subscription

Product demo

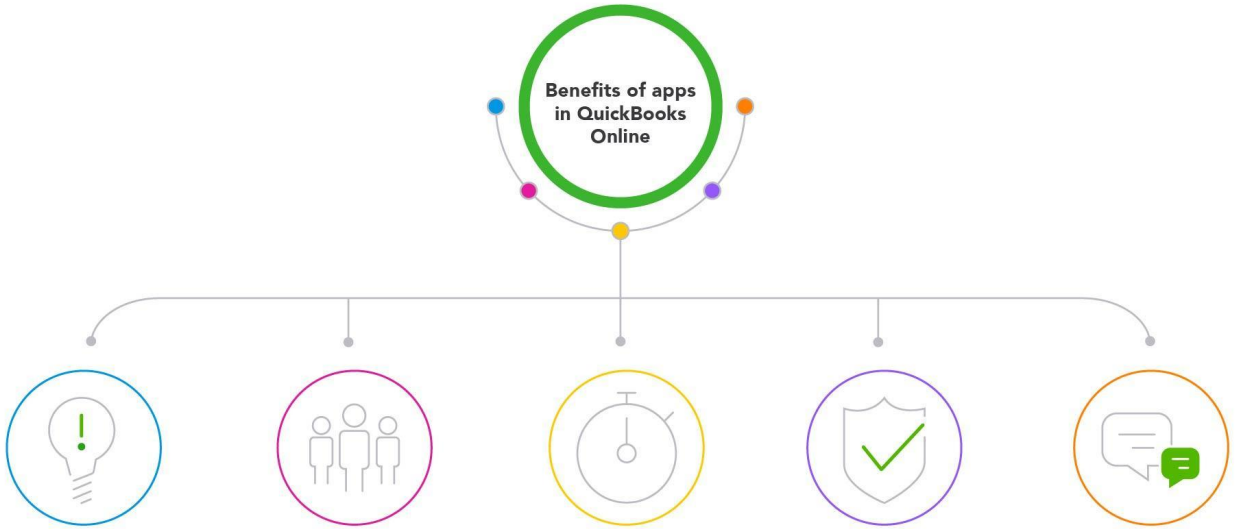

- Adding new client subscription
- Identifying a new client’s QBO file

QuickBooks Online ecosystem of quality-assured integrations

- All integrations must be approved by Intuit before being listed.
- Integrations are available in the QBOA Apps tab or the QuickBooks Integration icon or **apps.com**.
- You can add listed integration to your client's account, or they can sign up themselves.
- Some of our most trusted integration partners have teamed up with us to offer wholesale billing discounts or other special offers.
- You can find out what discounts are available by visiting the QuickBooks Online Accountant App tab.
- When you add one of our **featured** integrations for clients, you can get one itemized, consolidated bill sent directly to your firm. To do this, choose "Buy now with accountant discount (firm is billed)" when checking out.

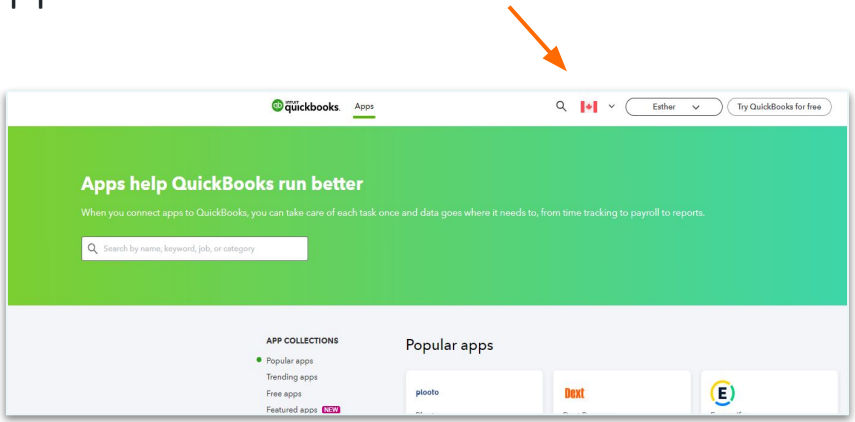

How do QuickBooks Online integrations work?

Best practices for finding the right integration for your clients

- Read reviews and talk to other ProAdvisors or users
- Testing – start a free trial and request a demo
- Understanding the Supplier's billing policy
- Research the Supplier's onboarding and support services
- Finding integrations:
  - Inside of QBOA

    OR
  - From apps.com: choose Canadian flag

Learn more: Install and use integrations

Product demo

Where to find integrations?

Module 1: QBOA dashboard

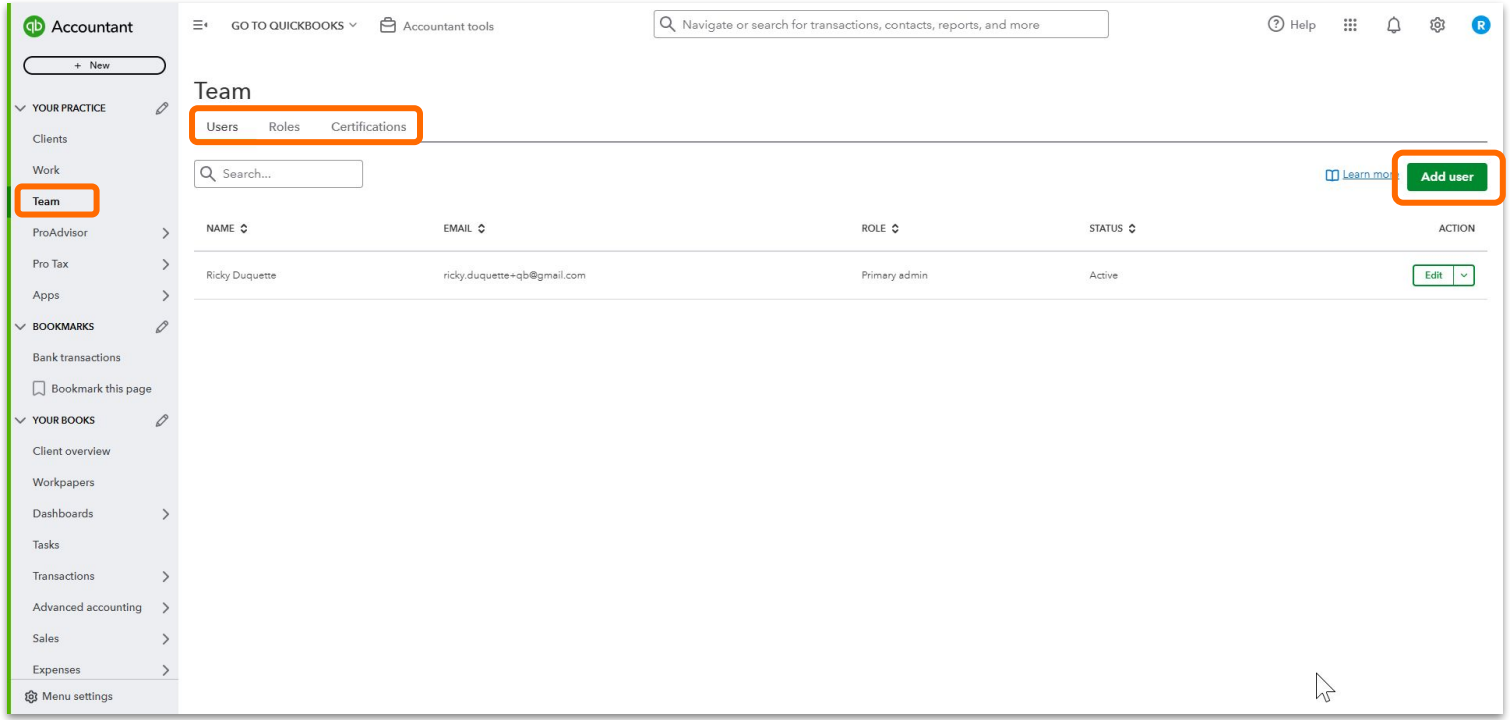

Lesson 3: Team members

Team user details

- Access the Team centre from the navigation bar
- Team member access levels are only applicable to the firm's QBO file
- All Team members are "Accountant Users" when added to client QBO files
- All Team members have same permissions as "Company admin" within client QBO files
- Not possible to adjust a Team member's user access level for individual client files
- Team member view of Client list includes only those clients to which member granted access

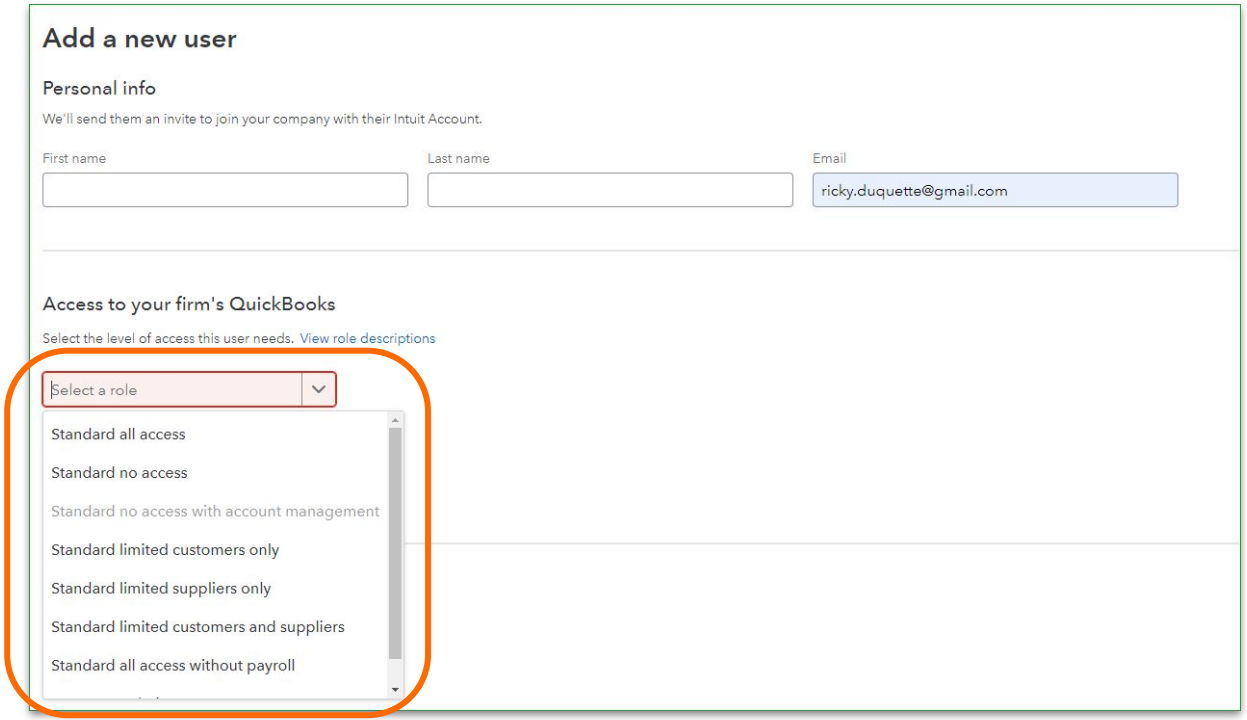

Adding a team user in QuickBooks Online Accountant

Learn more: Add and manage your accounting team

Team access levels to the firm's QBOA account

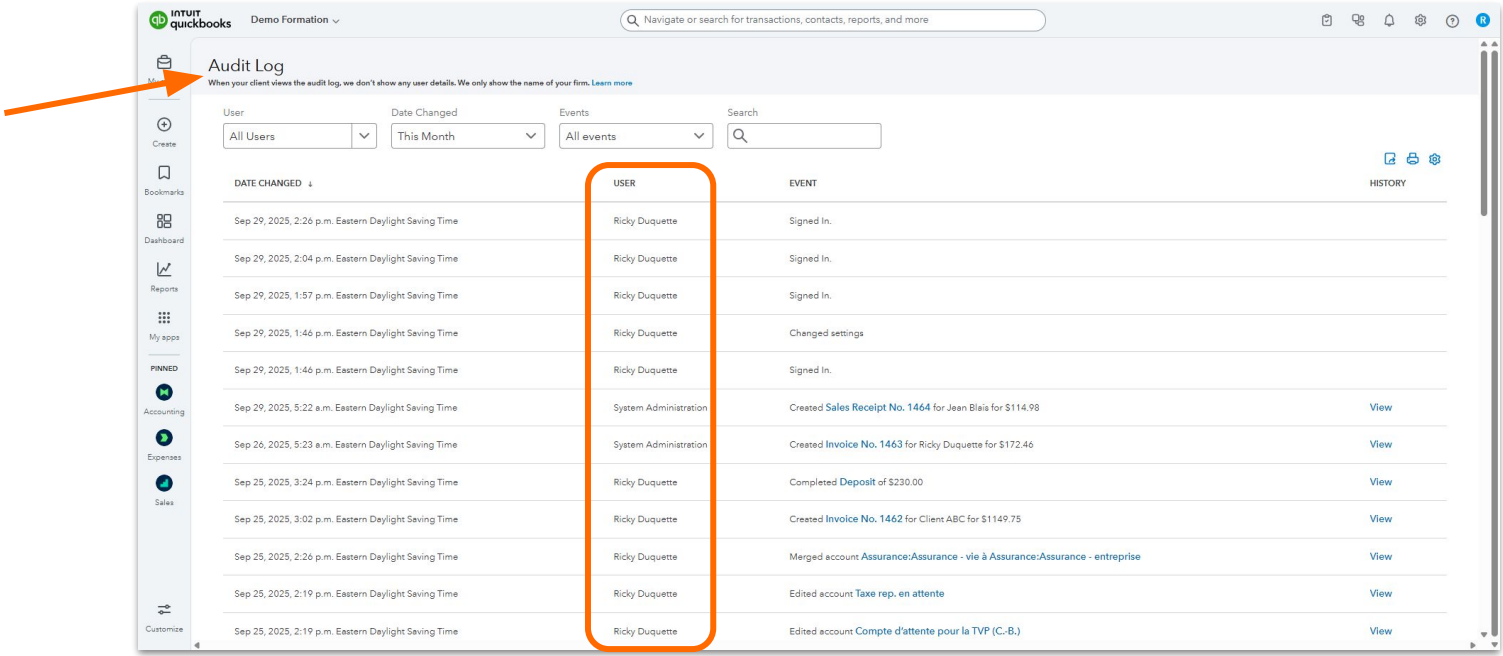

Learn more: User roles and access rights

Product demo

Adding a team member

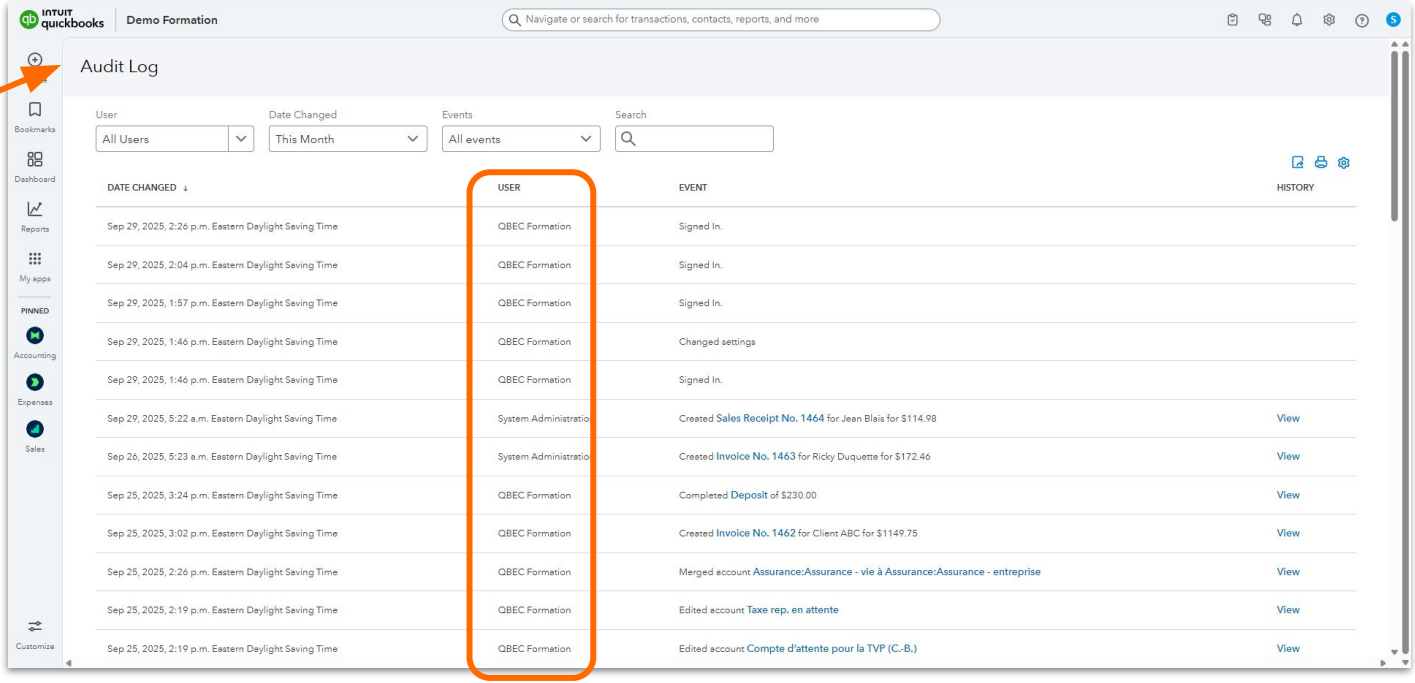

Audit log – QBOA view

Displays the individual team member's name next to the transaction activity allowing you (the firm owner) to track and manage your team's work

Audit log – Client view

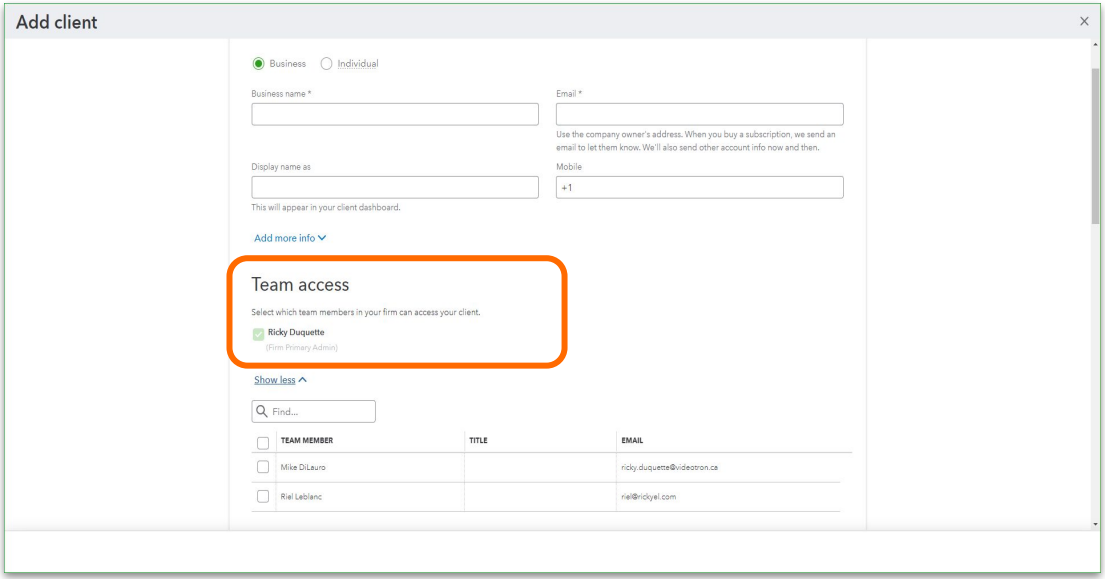

Displays the Lead Accountant name for activities recorded by them – activities recorded by all other team members will display the firm name only

Learn more: How clients and accountants view the audit log

How a lead accountant is assigned

- **Add Client:** The team member that creates the subscription from QBOA becomes the lead accountant by default
- Lead Accountant displays as the **Primary Admin** on the client view
- **QBOA Primary Admin** remains unchanged on the QBOA account
- **Lead Accountant Primary Admin** is a sub-role to **QBOA Primary Admin**

Manage users – Client view

Manage Users – Accounting firms

- Client will only see the **Lead Accountant Name** and **Firm name**

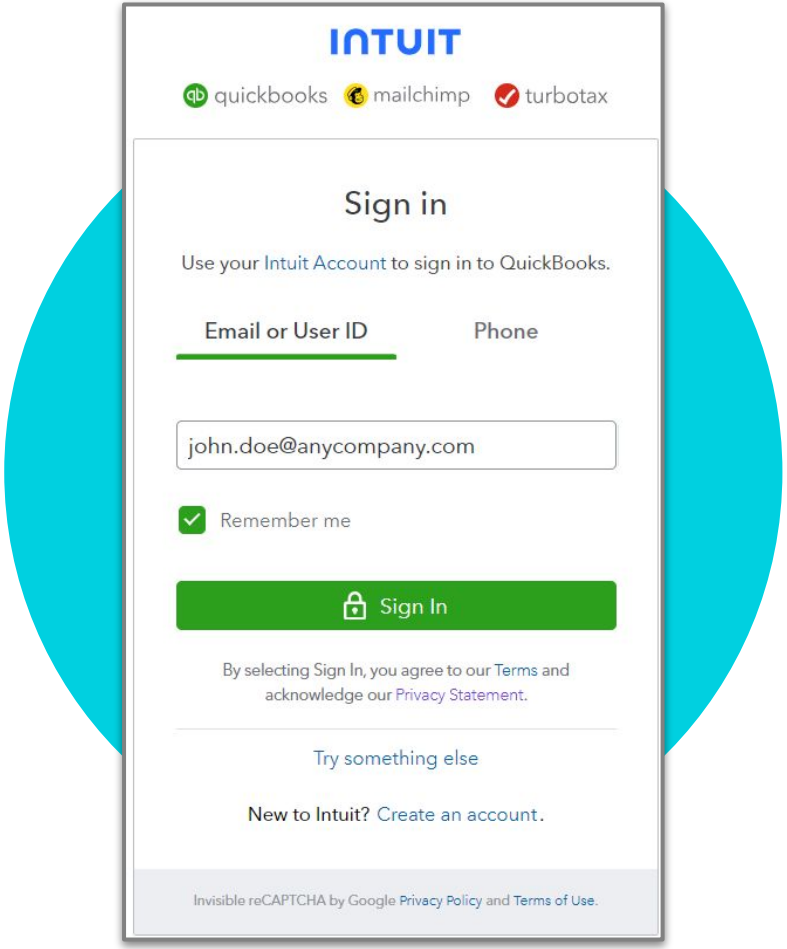

Learn more: Set up or Change the Lead Accountant

Additional information and keyboard shortcuts

To access:

- **Gear icon > Additional info**

Or anytime by clicking the following:

- PC users: **CTRL + ALT + ?**
- Mac users: **CTRL + OPT + ?**

Additional information

You're viewing QuickBooks in **Accountant view**

Your Company ID is **1231 4584** Copy

Keyboard Shortcuts

To use a shortcut, press and hold **ctrl/control** and **alt/option** at the same time. Then press one of the keys below.

On main pages, like the dashboard or customers

SHORTCUT KEY	ACTION
i	Invoice
w	Cheque
e	Estimate
x	Expense
r	Receive payment
c	Customers
v	Suppliers
a	Chart of accounts
l	Lists
h	Help
f	Global search
d	Focus the left menu
? or /	This dialog

On transactions, like an invoice or expense

SHORTCUT KEY	ACTION
x	Exit transaction view
c	Cancel out
s	Save and new
d	Save and close
m	Save and send
p	Print
? or /	This dialog

Learn more: More keyboard shortcuts

Date shortcuts

To use the date shortcuts, place your cursor in any data field in QBO and then press any of the following shortcut keys:

T – enters today's date

W – enters the first day of the week

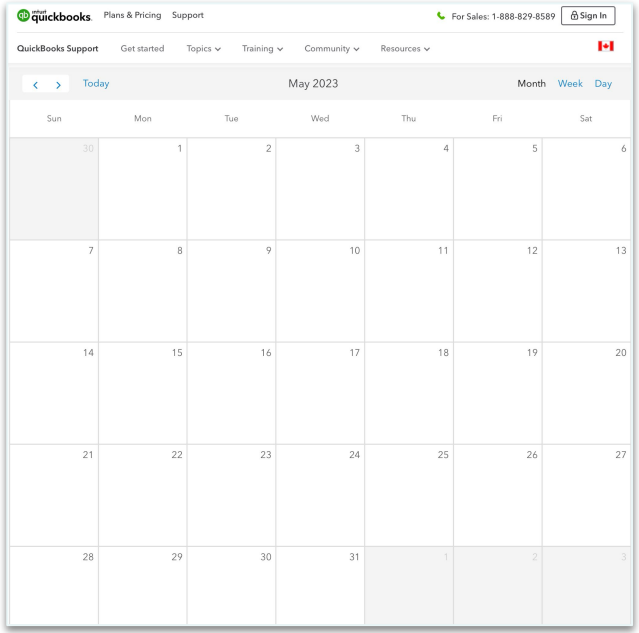

K – enters the last day of the week

Y – enters the first day of the year

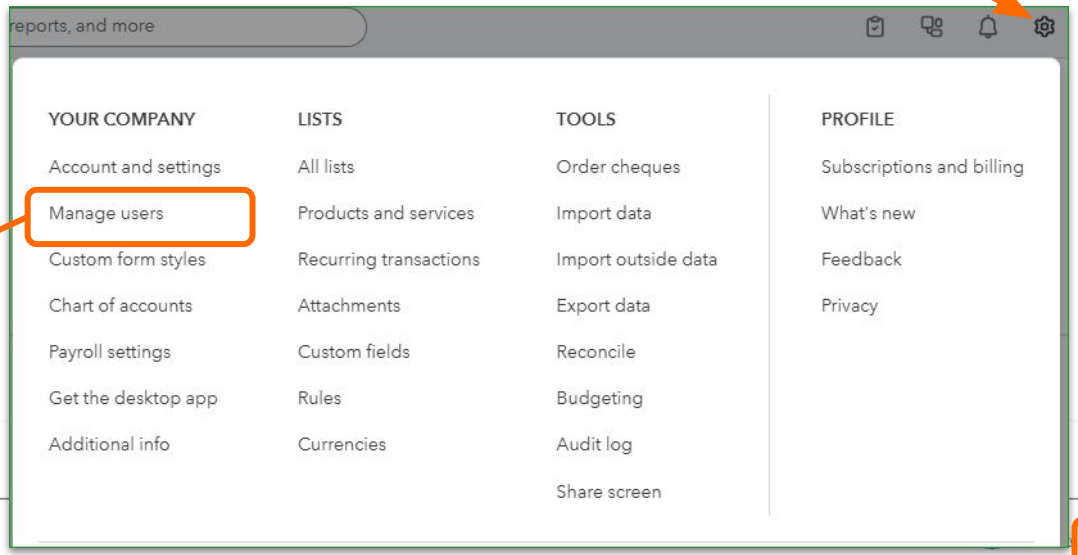

R – enters the last day of the year

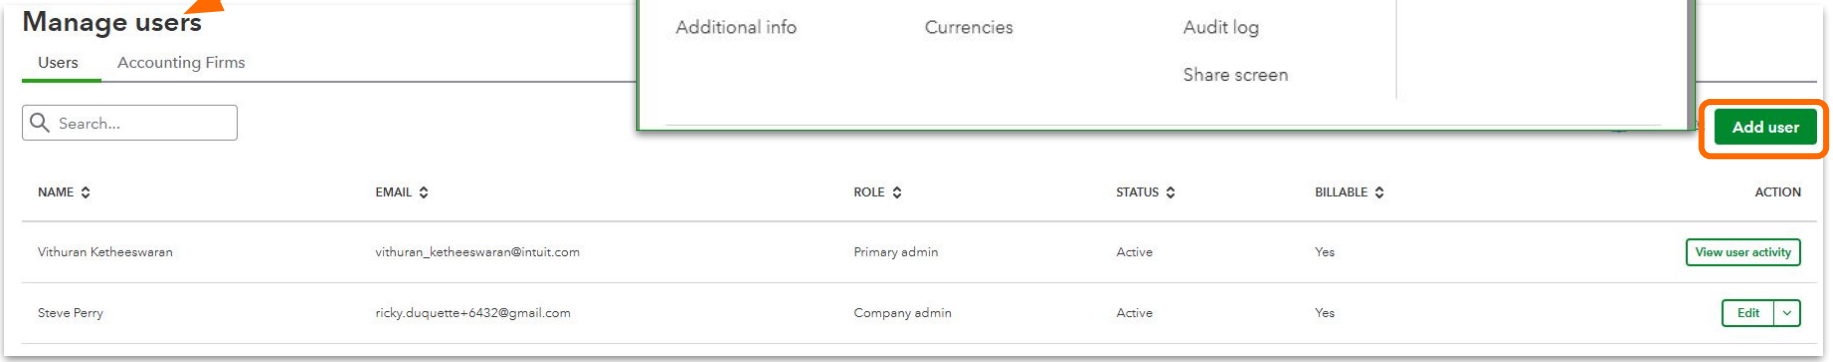

M – enters the first day of the month

H – enters the last day of the month

Setting up users

Module 2: Getting started

Lesson 2: Tax application

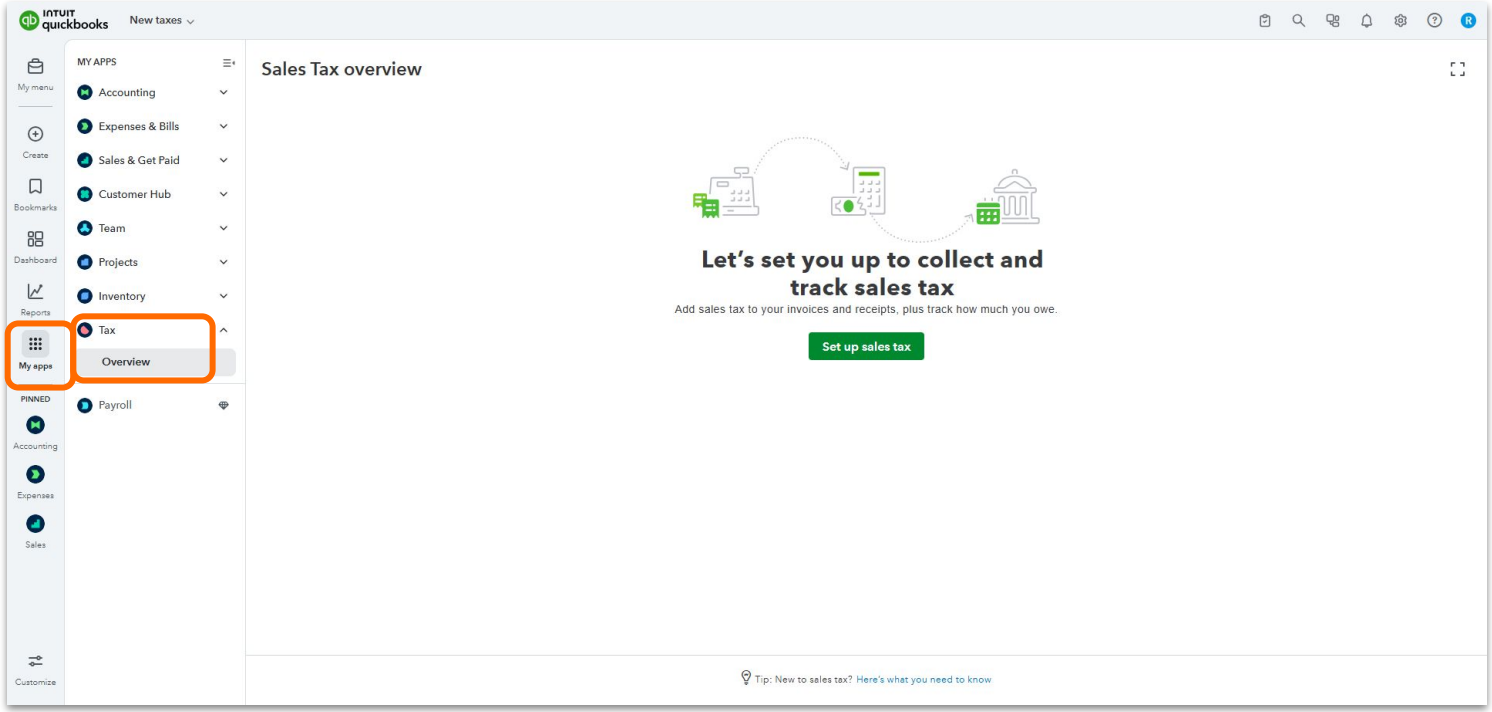

Getting started with sales taxes in QuickBooks Online

Assessing federal sales tax requirements

- Where are they located?
- Do they do business in more than one province?
- To which agencies do they need to pay sales tax?
- What is the filing frequency?
- What is their GST/HST Number?

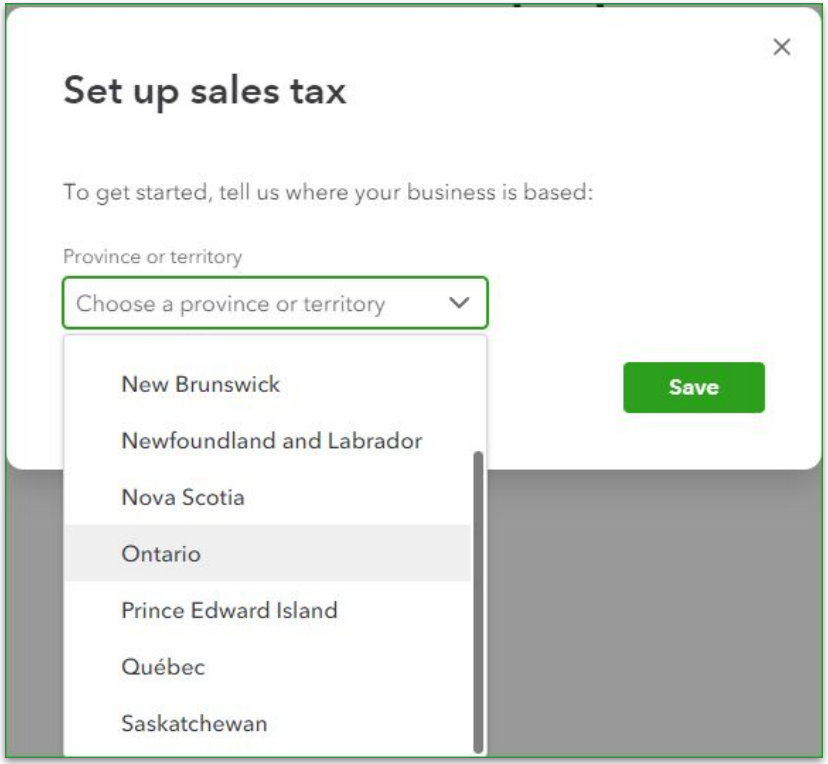

Set up sales tax

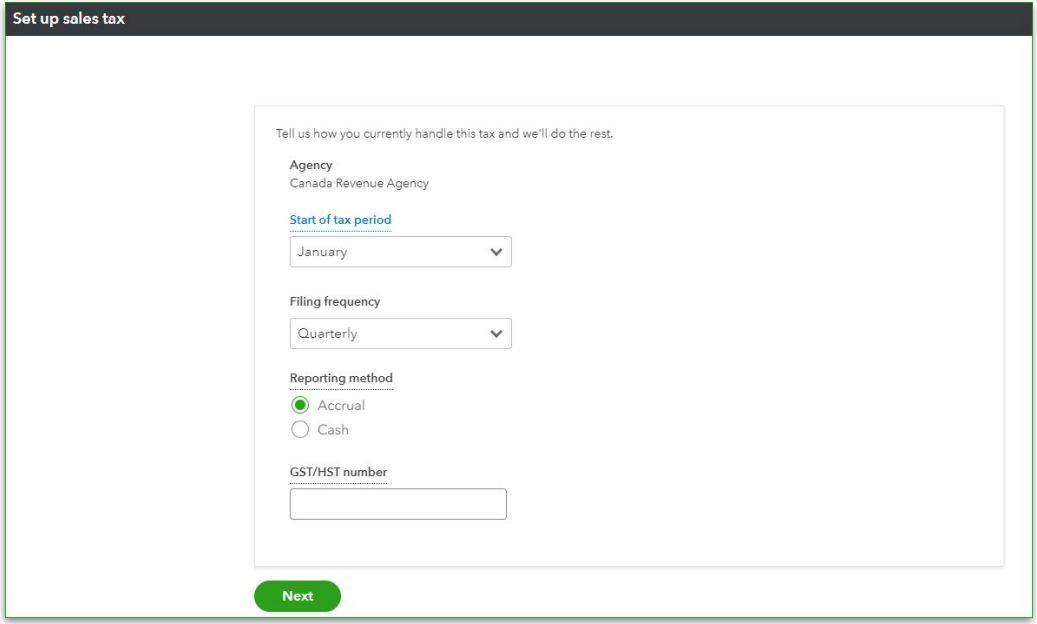

Learn more: Set up and use sales tax

Set up sales tax

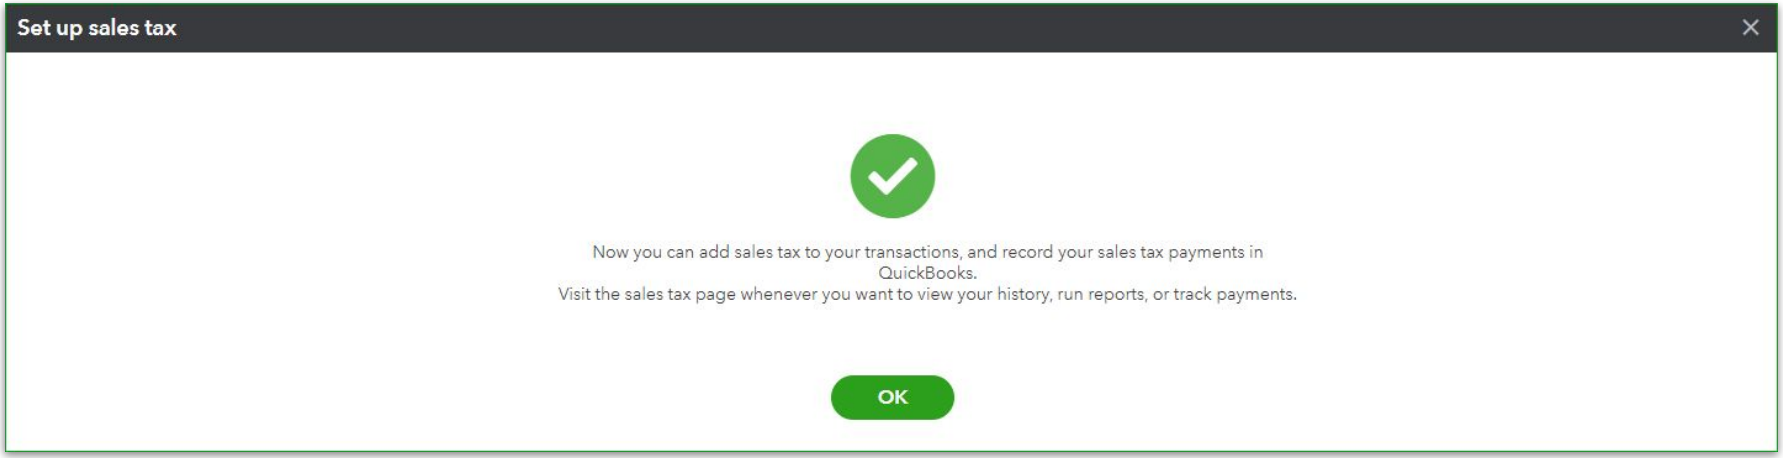

Set up sales tax

- Choose the **Start of tax period**
- Choose **Filing Frequency**
- Select **Reporting method**
- Enter the **GST/HST or PST number**
- Click **Next**

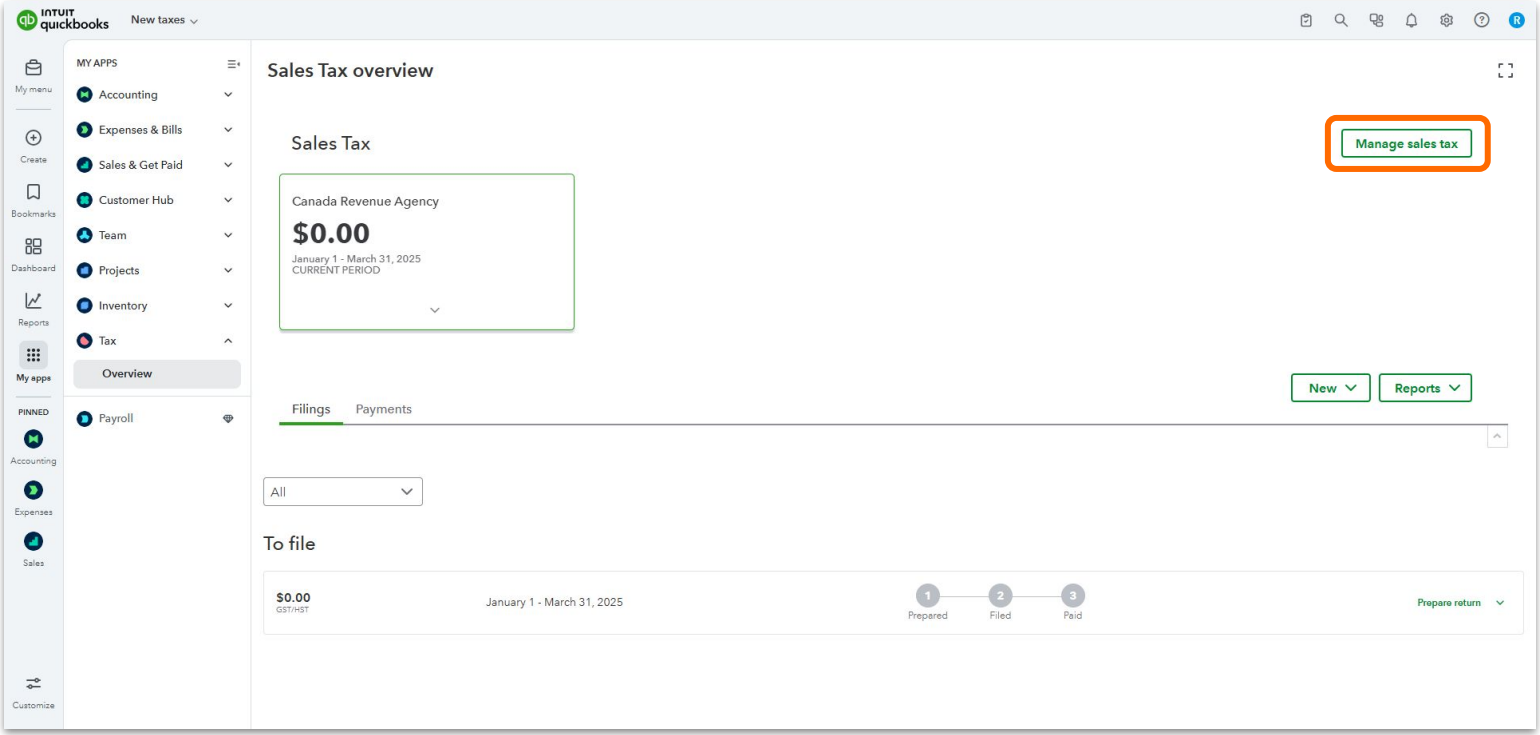

Set up sales tax

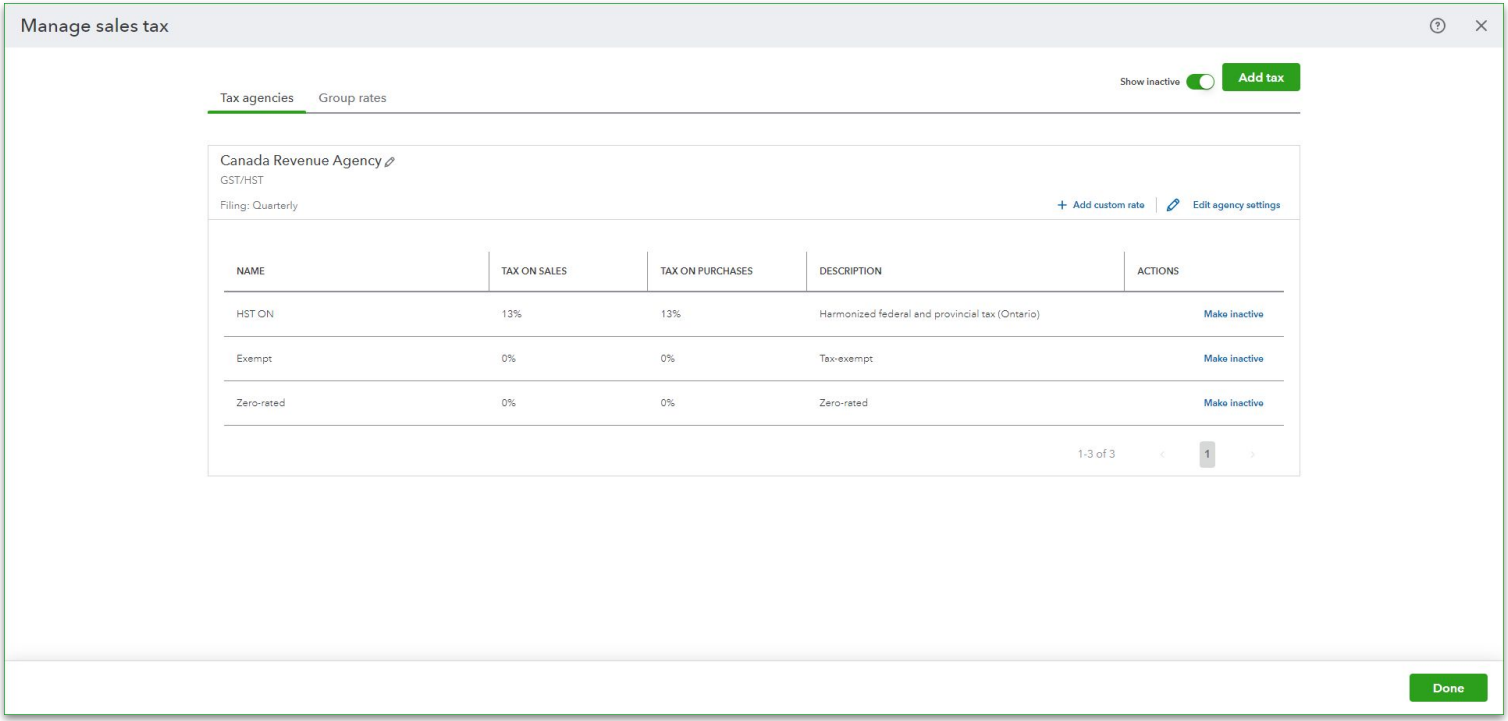

You will receive a Confirmation Window. Click OK to return to Sales Tax page.

The sales tax page

Manage sales tax

Learn more: How to set up a new sales tax code

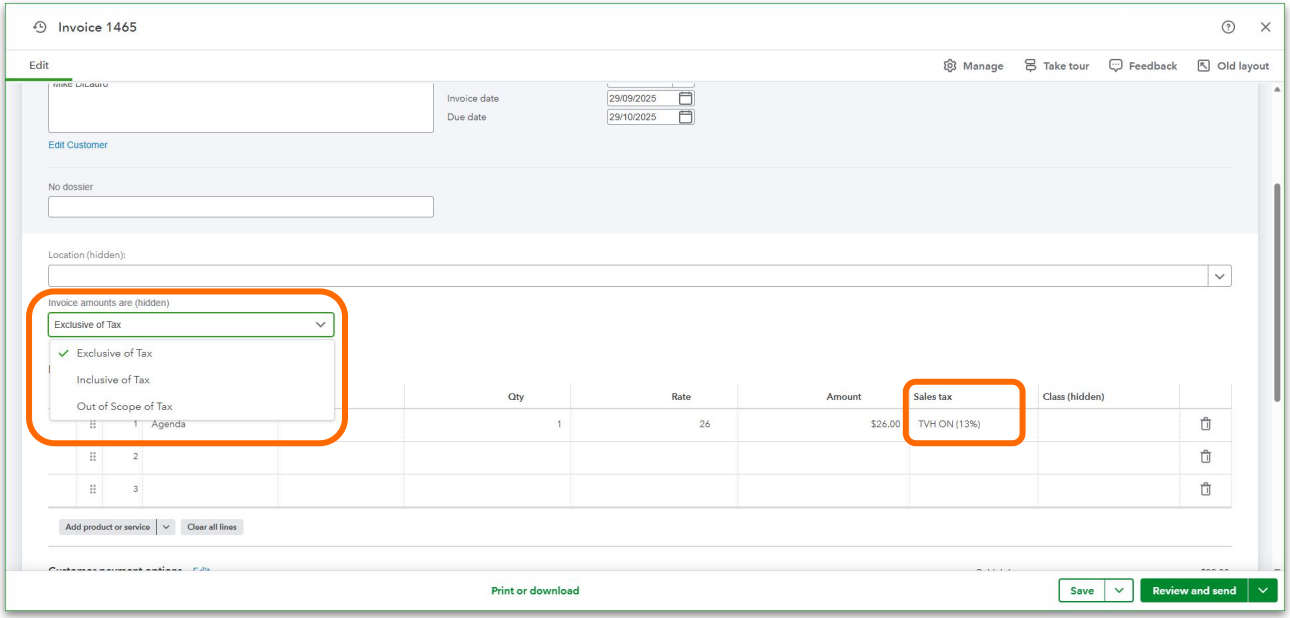

Sales tax codes

Two places to select sales tax handling in forms:

Can be coded:

- Exclusive of Tax
- Inclusive of Tax
- Out of scope of Tax*

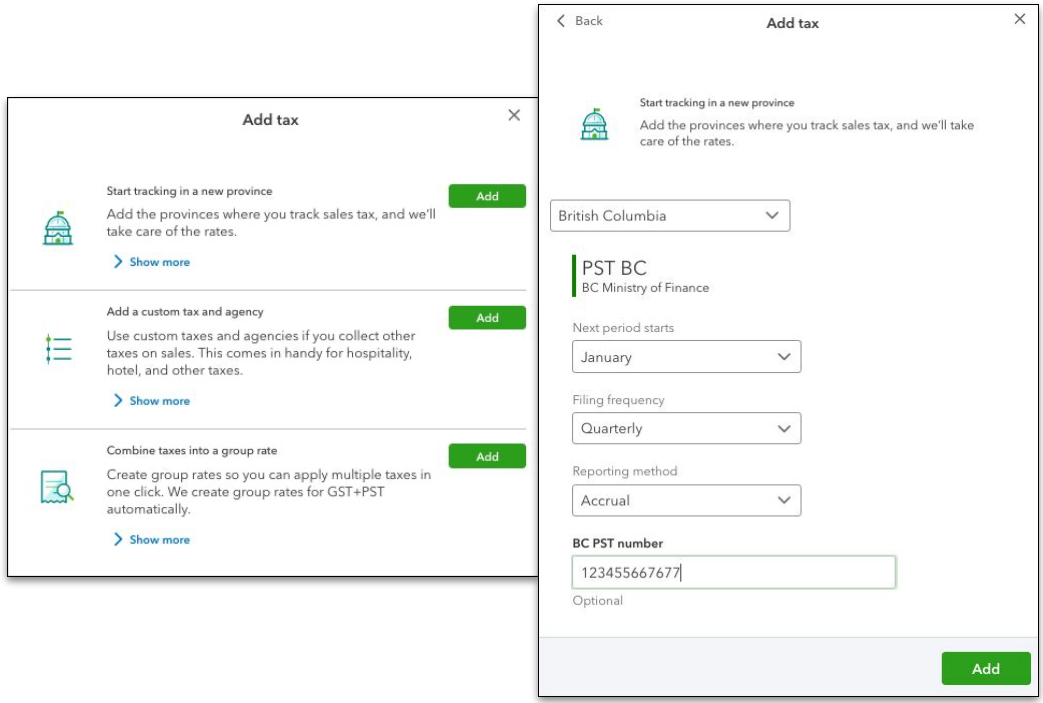

**Code is exclusive to QBO with specific functionality*

Add a new tax

Enter the following:

- The applicable **Province**
- The period the **Next period starts**
- The **Filing frequency**
- The **Reporting method**
- The provincial tax account **Number**
- Click **Add**

Learn more: Set up where you collect sales tax

Product demo
